

Table 1. Feature reference table for Port-cyclone interaction records

Category	Feature	Description
Interaction Identifier	ID	Port-cyclone interaction identifier
	SID	Cyclone Identifier by IBTrACS
	PID	Port identifier
	port	Name of the port
Key Time Stamps	start_date	Start date of CT exposure
	end_date	End date of CT exposure
	start_recovery_date	Identified start of recovery date in resilience curve
	end_recovery_date	Identified end of recovery date in resilience curve
Resilience Metrics	total_impact	Total impact (unit: equivalent days of recovery)
	total_impact_value	Total impact in vessel count (unit: number of vessels)
	max_impact	Maximum impact
	day_of_recover	Recover duration (unit: days)
	Degree_difference	Degree difference
	CC_difference	Closeness centrality difference
	BC_difference	Betweenness centrality difference
Cyclone Exposure	SSH5	the Saffir–Simpson hurricane scale (-1: TD, 0: TS, 1-5: Categories 1-5)
	WIND	CT eye's sustained speed
	PRESSURE	CT eye's pressure
	DISTANCE	CT eyes' closest distance to port (km)
	IF_LANDFALL	Indicator of if CT had landfall in US
	IF_LANDFALL_CLOSE2PORT	Indicator of if CT Landfall location is within 500km to port
	Wind_speed	Sustained wind speed at CO-OPS gauge closest to port (unit: m/s)
	Surge_height	Storm surge height at CO-OPS gauge closest to port (unit: m)
	Rainfall	Rainfall amount at ASOS station closest to port (unit: mm)
Port Characteristics	Port_ranking	Rank of port among 150 principal ports by USAGE
	Coast_Gulf_of_Mexico	Indicator of port located in Gulf of Mexico
	Coast_Atlantic	Indicator of port located in East Coast

	Coast_Pacific	Indicator of port located in Pacific Coast
	Seaport	Indicator of port categorized as seaport
	D_normal	Degree of port in recent normal weeks
	D_cyclone	Degree of port in the CT impact week
	C_normal	Closeness centrality of port in recent normal weeks
	C_cyclone	Closeness centrality of port in the CT impact week
	B_normal	Closeness centrality of port in recent normal weeks
	B_cyclone	Closeness centrality of port in the CT impact week
	Pop_C	Port located county population
	Pop_Tract	Port located census tract population
	PCT_Pov	Percent of individuals below federal poverty line by census tract
	WF	Workforce factor by census tract
	PCT_TA	Transportation access percentile rank in U.S. by census tract
	PCT_ACEW	Anticipated changes in extreme weather percentile rank
	PCT_TI	Transportation insecurity percentile rank
	PCT_SV	Social vulnerability percentile rank
	SL	Sea level rise inundated area indicator
	Railway_Length	Port connected railway length within 3km
	Highway_Length	Port connected highway length within 3km
	Dock_Count	Number of operational docks at the port
